

Zero The Hero Visits!

COHOES—Mathematical Super Hero, *Zero The Hero* took time out of his busy schedule to visit the four year old pre-school classroom at the Cohoes Child Development Center. *Zero* had learned that the four year olds were beginning numbers and counting and couldn't miss out on a chance to champion his favorite number: "zero."

The children were very excited to have a real life super hero in their midst. After all, who couldn't do without a few extra zeroes these days!

"The children loved it and are still talking about it to this day." said Director Tammy DiCocco.

While *Zero the Hero's* origin is shrouded in mystery; Kathy Mann, four year old head teacher knew—that like *Superman's* Jimmy Olsen, Zero too must have a sidekick!! She contacted **Dr. Jean Feldman** (drjean.org), who made contact with "Zero" about the upcoming lesson plan.
